

BELONG

The Magician

I don't know what I'm becoming
Sinking in like quick sand
This one must be all or nothing
Leaving me with whiplash

Giving me a fever feeling
I didn't know I needed
With you it's like an see through ceiling
There's no limit to our dreaming

You hold me close I could live forever
Too physical to break us apart
Ooh when we dance yeah we go together
So let's move until we drop

You hold me close I could live forever
Too physical to break us apart
Ooh when we dance yeah we go together
So let's move until we drop

I'm in 7th heaven
Swear I must be dreaming
It's like I know you from another life
Must be history repeating

Giving me a fever feeling
I didn't know I needed
'Cause with you it's like an see through ceiling
There's no limit to our dreaming

You hold me close I could live forever
Too physical to break us apart
Ooh when we dance yeah we go together
So let's move until we drop

You hold me close I could live forever
Too physical to break us apart
Ooh when we dance yeah we go together
So let's move until we drop

Dance if you wanna get high
If you wanna feel love
Let me give you some more

Dance if you wanna get high
If you wanna feel love
Let me give you some more

Dance if you wanna get high
If you wanna feel love
Let me give you some more

Dance if you wanna get high
If you wanna feel love
Let me give you some more

Dance if you wanna get high

If you wanna feel love
Let me give you some more

Dance if you wanna get high
If you wanna feel love
Let me give you some more

Dance if you wanna get high
If you wanna feel love
Let me give you some more
