

MELODIC AVENUE

The Magician

In the light, in the light
On the side, on the side
Tryin' to find, tryin' to find
Where you are, where you are
You got the right, got the right
Tune I like, tune I like
When you have those feelings that penetrate you

One step closer
I'm your chauffeur
Let's move now cause
All I want is to do

Something with you
That makes you feel good
Out of the blue
All I want is to do
Something with you
That makes you feel good
Out of the blue
On the melodic avenue

Something with you
That makes you feel good
Out of the blue
All I want is to do
Something with you
That makes you feel good
Out of the blue
On the melodic avenue

On the melodic avenue

I know that I, know that I
Gotta rhyme, gotta rhyme
I'm tryin' the only one groove
That makes you wanna move too
Now you drive the beat, drive the beat
Hold on to your seat
You got no more lonely night
All I want is to do

Something with you
That makes you feel good
Out of the blue
All I want is to do
Something with you
That makes you feel good
Out of the blue
On the melodic avenue

Something with you
That makes you feel good
Out of the blue
All I want is to do
Something with you
That makes you feel good

Out of the blue
On the melodic avenue

Melodic avenue, with you

On the melodic avenue

Melodic avenue, with you
Melodic avenue, with you
Melodic avenue
