

NEVER ALONE

The Magician

You walk around in your pyjamas
Look in the mirror time for some drama
You tumble down from highest heaven
Changing the weather sending down trouble

You show up
Like the world should know your name
Just slow down there's no mistake
Not knowing who you are
Just know

That you're never alone
I'm with you when you call my name
That you're never alone
I'm with you when you call my name
(I'm with you everyday)

You walk around with frustration
Time to go on a sunny vacation
Don't worry now save it for later
Because I've got a plan
But no time to explain
Just make sure you show up

'Cause the world doesn't understand
Just know

That you're never alone
I'm with you when you call my name
That you're never alone
Like a painting on the wall
I watch you every day

That you're never alone
I'm with you when you call my name
That you're never alone
I'm with you when you call my name

That you're never alone
I'm with you when you call my name
That you're never alone
I'm with you when you call my name

That you're never alone
I'm with you when you call my name
That you're never alone
Like a painting on the wall
I watch you every day
