

Take Ecstasy with Me

The Magnetic Fields

You used to slide down
The carpeted stairs
Or down the banister
You stuttered like a kaleidoscope
Cause you knew too many words
You used to make ginger bread houses
We used to have taffy pulls

Take ecstasy with me baby
Take ecstasyÂ with me.

You had a black snowmobile
We drove out under the northern lights
A vodka bottle gave you
Those raccoon eyes
We got beat up
Just for holding hands
