

Lost

The Magnificent

Everyday is like the day before
Nothing seems to change
Ever since you took your love away
And walked out on me
I am lying here in the darkness
Another sleepless night is falling down on me
Can't you see
You took the love right out of me
I am lost without you in my life (in my life)
I am nothing but a shadow of a man I used to be
I am lost without you in my life
You know that I need you so
I just can't let you go
Every time I think about you babe

There's a smile on my face
Sweet memories of the golden days
Will never fade away
And I feel how the tears are falling
Down once again
Don't say that it's over now
Work it out somehow
Don't take your love away from me
I am lying here in the darkness
Another sleepless night is falling down on me
Ever since you took your love away
You know I still keep holding on
It seems that I can't never let you go
