

funny how?

The Maine

At seventeen I couldn't dream of something like this
Oh what a sweet trip
I was just a kid myself
And then hours turned to days
Five years is a flash
Let's make it count 'cause we cannot make it last
And I want you and no one else

Oh ain't it funny how
I never needed you 'til now
Ain't it funny how
You made it easier somehow
Ain't it funny how
I didn't know before you, I was bleeding
I can breathe again
All my walls have fallen down
Ain't it funny how?
Oh ain't it funny how?

At seventeen I couldn't dream of something like this
Oh what a feeling
Yeah it's one I've never felt
Even after I'm gone I'll be with you
On your birthdays and your worst days
And all the in-betweens
Believe me now

Oh ain't it funny how
I never needed you 'til now
Ain't it funny how
You made it easier somehow
Ain't it funny how
I didn't know before you, I was bleeding
I can breathe again
All my walls have fallen down
Ain't it funny how?

How it all feels like fate
How it falls into place
Now the moment's we have
Are the best that I've ever
I don't know where they all go
But here's my heart, now hold it close
'Cause you are the one that brought me here somehow

Oh ain't it funny how
I never needed you 'til now
Ain't it funny how
You made it easier somehow
Ain't it funny how
I didn't know before you, I was bleeding
I can breathe again
All my walls have fallen down
Ain't it funny how?
Ain't it funny how?
Oh, ain't it funny how?
