

# Lips

The Maine

Let's talk all about the way  
The way your mouth moves when you  
Try to speak honestly  
You're fluent in faking things  
What do you look  
What do you look like  
When you lie?

Maybe it's that loose-lipped way you make your words roll  
Off that two-bit tongue when you lie, mmh  
You can't keep talking like this  
Lips do more than just kiss

Let's talk about the way  
The way we talk  
And how you gossip on everything  
You're so fluent in tragedy  
What do you look  
What do you look like  
When you lie?

I don't wanna talk  
I don't wanna talk

Maybe it's that loose-lipped way you make your words roll  
Off that two-bit tongue when you lie, mmh  
You can't keep talking like this  
Lips do more than just kiss  
It's on your lips when you're talking  
It's on your lips when you lie  
You can't keep talking like this  
Lips do more than just... kiss

You mislead, you rewind  
On repeat all of the time  
Every word, every line  
On repeat, all of the time, all of the time, yeah

Maybe it's that loose-lipped way you make your words roll  
Off that two-bit tongue when you lie, mmh  
You can't keep talking like this  
Lips do more than just kiss  
It's on your lips when you're talking  
It's on your lips when you lie  
You can't keep talking like this  
Lips do more than just kiss
