

Numb Without You

The Maine

Let's get this straight, you are
A panic in the blood stream
Yet you bring me peace, you are
A stutter in the heart
That beats inside of me

You are my last, you are my first
You kill me for the better
You are the risin' tide
You're every fucking thing inside me now

You are the violence in my veins
You are the war inside my brain
You are my glitter and my gloom
I am so numb without you

You are the violence in my veins
You are the war inside my brain
You are my glitter and my gloom
I am so numb without you
I am so numb without you

Let's get this straight, you are
A fever in the cold
Yet I'm not shivering
You are a shutter in the voice
That screams inside of me

You are my last, you are my first
You kill me for the better
You are the risin' tide
You're every fucking thing inside me now

You are the violence in my veins
You are the war inside my brain
You are my glitter and my gloom
I am so numb without you

I won't leave, no I won't surrender
And I'll wait till the end of, the end of time
You are my glitter and my glue
I am so numb without you

Without you, without you
I'm numb without you
Without you, without you
I'm numb without you
Without you, without you

You're every fucking thing inside me now

You are the violence in my veins
I am so numb without you

You are the violence in my veins
You are the war inside my brain
You are my glitter and my gloom

I am so numb without you

I won't leave, no I won't surrender

And I'll wait till the end of, the end of time

You are my glitter and my glue

I am so numb without you

I am so numb without you
