

spiraling

The Maine

Another drink, inhale some things
Can't sober up, I'm spiraling
Around the room when I think about you
Open the blinds, it's summertime
Up in my mind I feel so fine
I'm in the clouds when I think about you

I'm all fucked up on you
Try to play it cool
There's nothing I can do now
I'm all fucked up on you
All fucked up on you
I try to play it cool
There's nothing I can do now
I'm all fucked up on you
All the way up

Another drink, inhale some things
Can't sober up, I'm spiraling
Around the room when I think about you
Open the blinds, it's summertime
Up in my mind I feel so high
I'm in the clouds when I think about you

I'm all fucked up on you
Try to play it cool
There's nothing I can do now
I'm all fucked up on you
I'm all fucked up on you
I try to play it cool
There's nothing I can do now
I'm all fucked up on you (on you, on you, on you)

Another drink, inhale some things
When I think about you
When I think about you
You leave the room, I'm spiraling
When I think about you
When I think about you
Spiraling, I'm spiraling
Spiraling

I'm all fucked up on you
Try to play it cool
There's nothing I can do now
I'm all fucked up on you
I'm all fucked up on you
I try to play it cool (when I think about you)
There's nothing I can do now
I'm all fucked up on you (when I think about you)

Another drink, inhale some things
When I think about you
When I think about you
You leave the room, I'm spiraling
When I think about you
When I think about you

Spiraling, I'm spiraling
Spiraling
Spiraling, I'm spiraling
Spiraling
