

# Touch

The Maine

Lost in a moment  
Every moment when we touch  
Hot under pressure  
In a momentary rush  
Awe like a goddess  
In a vision  
All is forgiven  
Lost in the rhythm  
In the rhythm of your touch  
(In the rhythm of your touch)  
(Touch, touch)  
(In the rhythm in the, in the rhythm in the-)

I like the way you say  
You want me with your mouth closed  
Forget the smoke alarm  
Just open all the windows

So I turn back now  
(So keep it up, don't put me down)  
Time slows down  
(Keep it, keep it)

Lost in a moment  
Every moment when we touch  
Hot under pressure  
In a momentary rush  
Awe like a goddess  
In a vision  
All is forgiven  
Lost in the rhythm, in the rhythm  
Of your touch  
In the rhythm of your touch  
(Touch, touch)

My heart beats a little too fast  
And you make it beat even faster  
(Keep it up, don't put me down)  
Awe like a goddess in a vision  
(So keep it up, keep it up)  
All is forgiven

My heart beats a little too fast  
And you make it beat even faster  
(Keep it up, don't put me down)  
Awe like a goddess in a vision  
I'm lost in the rhythm  
In the - (one, two, three, four)

Lost in a moment  
Every moment when we touch  
Hot under pressure  
In a momentary rush  
Awe like a goddess  
In a vision  
All is forgiven  
Lost in the rhythm

In the rhythm  
Of your touch

Heart beats just a little too fast  
On fire and you like it like that  
Awe like a goddess  
In a vision  
All is forgiven  
Lost in the rhythm  
In the rhythm  
Of your touch
