

## Vibrate

The Manhattan Transfer

My phone's on vibrate for you  
Electro clash is karaoke too  
I try to dance Britney Spears  
I guess I'm getting on in years  
My phone's on vibrate for you  
God knows what all these new drugs do  
I guess to have no more fears  
But still I always end up in tears  
In tears, in tears

So call me  
Call me in the morning  
Call me in the night  
So call me  
Call me anytime you like

My phone's on vibrate for you  
But still I never ever feel from you  
Pinocchio's now a boy  
Who wants to turn back into a toy  
(To a toy)

So call me  
Call me in the morning  
Call me in the night  
So call me  
Call me anytime you like
