

# Just One Moment Away

The Mannhattans

Wheels turning  
For the yearning  
The burning that I feel inside  
It's turning me around  
Upside down  
Can't control it though I try

Just one moment away is too far away  
From lovin' you girl, ooh baby  
Just one moment away is too far away  
From lovin' you girl, hey

Imagination  
Concentration  
Pure delight all through the night  
A world of ecstasy  
Has taken over me  
Just don't hurry mornin' light, hey

Can't you feel it? Can't you feel it?  
Ooh I love it, ooh I love it  
I just want you with me

Just one moment away is too far away  
From lovin' you girl ooh baby  
Just one moment away is too far away  
From lovin' you girl yeah yeah yeah yeah  
Just one moment away is too far away  
From lovin' you girl  
Can't you see I need you girl

Can't you see, can't you see

Just one moment away too far away  
From lovin' you girl, ooh baby  
Just one moment away is too far away  
From kissin' you girl, uh sugar  
Just one moment away is too far away  
From squeezin' you baby  
Just one moment away is too far away  
From squeezin' you baby
