

# Where Did We Go Wrong?

The Mannhattans

Life, it is a lesson, still I have answers to find  
There s at least a thousand questions hanging over my head  
How could we be so near  
Yet light-years behind

Oh, there s been too much injury  
No, not a saving grace this time  
So all that s left here are old memories  
How could we see so clear yet be so blind

Did I love you too hard  
Ooh, did I love you too strong  
Have I loved you, have I loved you much too long  
All I m saying is, where did we go wrong

There s a well made for wishing  
But all our wishes were spent  
We ve got so many broken dreams, so many rivers we ve cried  
Now there s no more tears, our banks have run dry

Oh, how much longer must we linger, I wanna know boy  
How much more time can we ride  
The answer only gets us back, boy, you and I  
So let s face the fact that we re saying goodbye

Did I love you too hard  
Did I love you too strong  
Have I loved you, oh have I loved you girl much too long  
All I m saying is, where did we go wrong

We didn t know that fate would lead our hearts astray  
Some things just weren t meant to be  
When love is blind you can t see the forest for the trees  
Baby we ll recover and learn, and learn to love all over, oh yeah

Did I love you too hard, baby  
I wanna know, did I love you too strong  
Have I loved you, have I loved you, oh much too long  
Tell me baby, where did we go wrong

I wanna know, you got to tell me, girl  
Did I, did I love you too hard, baby  
Did I love your body just a little bit too strong  
Have I loved you, have I loved you, have I loved you  
much too long  
Tell me, where did we go wrong

Did I love you, did I love you much too hard, baby  
Was my loving, was my loving too strong  
How much I love you, have I loved you much too long  
Tell me, where did we go wrong
