

Lie Lie Lie

The Marcus King Band

She's a wild one never had a mild tongue
Gypsy child yeah she always get the job done
Walking barefoot, trippin' to the jam scene
I gave her champagne now she wants a limousine

Don't you know what I mean
Yeah you know what I mean
Had to say goodbye, cause you lie, lie lied to me

I let her in then she took me for a joy ride
I let her win and I still don't even know why
I was singing she was smoking on a pipe dream

She was living but it wasn't in reality

Don't you know what I mean
Yeah you know what I mean
I said goodbye, cause you lie, lie lied to me

I'm so tired of dealing with insanity
I'm the fire baby you know you're my gasoline

Yeah you know what I mean
Yeah you know what I mean
I said goodbye, cause you lie, lie lied to me
