

There goes my life  
On the open road  
Can I be alone  
I can understand you  
There goes my light  
How can you be sure  
Are we going home  
With everyone beside you

I can understand you  
I can understand you  
I can understand you

Oh, can I get the window down?  
It's getting warm  
Oh, can you keep your voices down?  
I'm tryna push record

There goes my life  
On the open road  
Are we going home  
I can understand you  
There goes my life  
Can I be alone  
Are we going nowhere  
I can understand you

Oh, can I get the window down?  
It's getting warm  
Oh, can you keep your voices down?  
I'm tryna push record

Oh, can I get the window down?  
It's getting warm  
Oh, can you keep your voices down?  
I'm tryna push record
