

# All I Really Want Is You

The Marías

Breakdown

I'm overworking till the sundown  
Don't see the light inside my head now  
I need to see you in my window  
In a whisper

All I really want is you  
What would you do?  
Lying in the rain with you  
Middle of June  
All I really want is you  
What would you do?  
Sleeping outside the moon  
Trippin' with you

Head down  
I don't know when to come up for air now  
You take my hand like there's a way out (Right now)  
And we're escaping through the window  
And I whisper

All I really want is you  
What would you do?  
Lying in the rain with you  
Middle of June  
All I really want is you  
What would you do?  
Sleeping outside the moon  
Trippin' with you

All I really want is you

All I really want is you

What would you do? (I'm over working till the sun down)  
Lying in the rain with you  
Middle of June (Don't see the light inside my head now)  
All I really want is you  
What would you do? (I throw a line outside the window)  
Sleeping outside the moon  
Trippin' with you
