

## Ballad of M.T.B.

The Marshall Tucker Band

They got their name  
From an old key chain  
Left lyin' on the floor  
They said it came  
From an old man that played  
You know we opened up the door

So they took off on their own  
And they left their families home  
Takin' it day by day  
And they spend most of their time  
Writin' songs 'bout Caroline  
They gonna make it, one day

The years, they passed  
And the songs, went by  
Like travelin' through those blue ridge mountain skies  
All the years today have all gone by  
You can still see it in their eyes

So they played from Caroline  
To the coast of California  
Workin' every day  
Makin' all their dreams come true  
Brought the music back to you  
You know they made it there this way

Wasn't that long ago  
Seems to me  
The long hard ride is over now  
Can't you see  
Can't you see

So they played from Caroline  
To the coast of California  
Workin' every day  
Makin' all their dreams come true  
Brought the music back to you  
You know they made it there this way

So they played from Caroline  
To the coast of California  
Workin' every day  
Makin' all their dreams come true  
Brought the music back to you  
You know they made it there this way
