

Knock On My Door

The Marvelettes

There he goes knocking on her door
She treats him like a bore
But he's the boy that I adore

Hey boy want you please be my boy
You're a living dream boy
So come over here boy
Want you knock on my door

I see you knocking everyday
Though she's always always away
She's busy runnin' round with
Other boys in town
Everyone knows but you
She treats you so untrue

Hey boy want you please be my boy
I'll be oh so true boy
So come over here boy
Want you knock on my door

From my window I see you knocking
As you did the day before
It hurt me so to see
You stand there tearfully
Everyone knows but you
She found someone new

Hey boy want you please be my boy
I'll be oh so true boy
So come over here boy
Want you knock on my door

Hey boy want you please be my boy
I'll be oh so true boy
So come over here boy
Want you knock on my door

Hey boy want you please be my boy
I'll be oh so true boy
So come over here boy
Want you knock on my door
