

## It's My Day

## The Matches

I just showed up here  
I can't be to blame  
I can only be to blame  
if I stay the same  
if I stay the same

and all the girls say  
it's my day  
it's my day

Whose day?

My brain cannot contain itself  
it's yelling through my spine  
I'm overjoyed  
heretofore I was insecure  
being so high  
so height I would avoid  
oh boy, oh boy

But it's my day  
it's my first day  
on the earth  
stay like today  
like my birthday  
like my sure thing  
it's my day  
and all the girls say  
it's my day  
it's my day

I went to church with my gramma  
Ma'am, I do not believe, but I rejoice!  
an' maybe my void and your lord are the same  
so save a seat for your boy

'cause it's my day  
it's my first day  
on the earth  
stay like today  
like my birthday  
like my sure thing  
it's my day  
and all the angels say  
it's my day  
it's my day

Smarter man than I  
said sha nananannana  
happier woman said  
hallelujah  
I just showed up here  
I can't be to blame  
I can only be to blame  
if I stay the same  
if I stay the same

it's my day  
it's my day
