

## My Song at Night

The Mekons

i had a dream  
i had a dream  
the children on earth  
began top sing

all their moms and dads  
went to bed:  
when they woke up,  
they were dead.

the reign of terror  
shall be no more;  
the reign of the rich against the poor.

instead all the animals shall rise  
there shall be blue in the earth's sky
