

High Low

The Menzingers

I saw a fire in the sky
I took it as a sign
I don't wanna die
Echoes of home

In an anxious mind
I'll be fine
And I know
These echoes of home

High low, high low
Everybody knows
Something just ain't right
When the lights go out at night

High low, high low
Everybody knows
Something just ain't right
When the lights go out at night

I felt the fire in my eyes
I was waiting for the right time
'Cause I don't wanna die
These echoes of home

If it falls just right
I won't mind
All alone
Echoes of home

High low, high low
Everybody knows
Something just ain't right
When the lights go out at night

High low, high low
Everybody knows
Something just ain't right
When the lights go out at night
