

She's A Zombie Now

The Meteors

My baby won't sleep in the cold cold ground
She's a zombie now
Oh when the moon comes up and the sun goes down
She's a zombie now

She won't lie still in the stone cold ground
She's a zombie now
At midnite we meet and then we fool around
'Cause she' a zombie now

I thank the lord for that
Good god I thank the lord for that
Anybody's god
I thank your god for that
I thank the lord for that
Good god I thank the lord for that

She won't ever get old, she'll never leave me cold
'Cause she's a zombie now
I thank the lord below I wouldn't let her go
She's a zombie now

I thank the lord for that

Anybody's god, I thank you for that
I thank the lord for that
Good god, up above and below, thanks for that

I thank the lord for that
Up above or below I thank the lord for that
Good god I thank the lord for that
Thank the lord, thank the lord
Thank the lord for that
Thank anybody's god for that

Well she won't lie still in the cold cold ground
She's a zombie now
Baby won't sleep in the cold cold ground
She's a zombie now
When the moon comes up and the sun goes down
She's a zombie now

She's a zombie now
She's a zombie now
She's a zombie now
