

Break Out of My Head

The Methadones

I'm lying awake in my bed
drawing conclusions in my head
I was told to strap on a set
cuz I'm all tangled up in her net

[Chorus]

I wanna breakout of my head
I wanna breakout of my head
I wanna I wanna I wanna breakout of my head

I count my fingers I count my toes
just to make sure I still know
that I'm human-I'm a man
but I feel like I've crawled out of a tin can

[Chorus]

I wanna breakout of my head

If I can't breakout soon I won't survive
from these thoughts eating me up alive
I can feel this strange friction within
like atoms splitting into twins
I wanna breakout of my head
