

## Hit a Nerve

The Methodones

You asked the question  
I gave the answer  
and than you were stunned by the words  
Shot me this look like you want to kill me It makes no sense to  
me  
I hit a nerve just from replying  
I hit a nerve-because I wasn't lying I hit a nerve  
Because you don't wanna-don't wanna don't wanna  
don't wanna don't wanna hear it again  
There was something raw I touched  
Slide through the back door ready to implode  
I hit a nerve just from replying  
I hit a nerve-because I wasn't lying I hit a nerve  
Because you don't wanna-don't wanna don't wanna  
Beside yourself like such a fool  
live a stupid fantasy but you think I'm cruel  
Stories I've heard over again  
Ending different like every time before  
Why the hell do you set yourself up?  
Or do you just forget who you're talking to?
