

# Turning Up the Noise

The Methadones

Turing up the noise/ turning up the noise  
I've got my finger's in my ears-turning up the noise

You love hearing the sound of your voice when you speak  
I'm really not impressed with your tirade of the week  
is there a point you're trying to make?  
won't you stop for heavens sake  
because you're really f\*\*king killing me

[Chorus]

you think everything you touch turns to gold  
just wait when you wake up feeling old  
listen to yourself for a minute and you might see  
you're really insecure pretending to know everything

[Chorus]
