**The Microphones**

M! I! C! R! O! P! H! O! N! E!  
The sound world  
Crammed in all around things  
Bouncing and sinking in our bones  
Heard through phones  
Bump right up to the diaphragm  
Wiggled near magnets that suck sound out  
Speed through wires, and knobs, and sliders  
Right into a special toy  
Stuck for good on plastic tape  
Spinning around right in the slot  
Microphone  
Magic magnet
