

# Fatal Obsession

## The Midnight

There's no escaping it  
Every corner down every road  
I see your face wherever I go  
You do something to me

I need you close to me  
Don't want to let go when we kiss  
I'm into the deep abyss  
You do something to me

Ember eyes  
You are my obsession  
We live separate lives  
Never learn my lessons  
You were in disguise  
I'm keeping all the best parts of you  
I just wanted something real  
I hate the way you make me feel

Loving you is fatal

I saw the seeds in your heart start to bloom  
Felt the strings in your body move  
And you called my name, and said hello  
You took me up and let me go

It's just that once you've tasted flight  
It's hard to spend the rest of your life  
Back on Earth grinding gears  
Dreaming about better years

Ember eyes  
You are my obsession  
We live separate lives  
Never learn my lessons  
You were in disguise  
Keeping all the best parts of you  
I just wanted something real  
I hate the way you make me feel

Loving you is fatal  
Loving you is fatal

Loving you is fatal  
Loving you is fatal

Ember eyes  
Separate lives  
In disguise  
Ember eyes  
Separate lives  
In disguise  
Ember eyes  
Separate lives  
In disguise  
Ember eyes  
Separate lives

In disguise  
Ember eyes  
Separate lives
