

Absent From The Heart

The Mighty Diamonds

Oooooooh

You're the best friend ive got
nd i can't tell you that I love you
oh right from the start I knew
I was gonna fall - fall for you

You're someone elses woman
So I do all I can
To try not to think about you

Absent from the heart for so long
now another is breaking your heart
Been away for too long
Now another is breaking your heart...

Take a look at our lives
when the days were young
we promised each other true love
as a child, I meant every word

I retreat back from you
it's eating my heart inside
if you could see what I see
then I'm sure you would realise
