

Bruised

The Mighty Mighty Bosstones

Let's run a few things up the old flagpole
A pair of eight holes with the Bouncing Souls
We're gonna show 'em who is in control tonight
We got the lower east to San Gennaro Feast
We come in peace but we will kill the beast or
That when we try to kill the beast at least tonight

We might be bruised
But we're not broken
We might be down but we're not out
Black and blue
No, we're not broken
A few tattoos, perhaps we're here to knock about

We got one kid here who will drain the beer
We got another brother over there
Moon stomping music's what he's here to hear tonight
And what we love to do, family and crew
Not breaking any ground here and it's nothing new
You come around and we're including you tonight

We might be bruised
But we're not broken
We might be down but we're not out
Black and blue
No, we're not broken
A few tattoos, perhaps to knock about

Bande, benday, banda comprende, my friend
Squadra manstemple amore so simple to send
Bande, benday, banda comprende, my friend
Squadra manstemple amore so simple to send to you

We might be bruised
But we're not broken
We might be down but we're not out
Black and blue
No, we're not broken
A few tattoos, perhaps to knock about
