

So Many Ways

The Mighty Mighty Bosstones

There's so many ways to do this Anyone could tell me that I could, what if, There's more than one way to skin a cat My options are unlimited My choices I can't list Why don't I, or how about, The answer must exist I've never had a problem In the past I'd have a plan If it can't be done was offered Then I'd offer yes it can I've never had a problem There's a problem here and now There's so many ways to do this Somebody tell me how So many ways to get this done So many ways I must pick one There's so many ways to do this That much I have gathered If I, or maybe, I would like to or I'd rather Now I need support from somewhere On my own's out of the question So many ways I know that now I'm desperate for suggestions I've never had a problem In the past I'd have a plan If it can't be done was offered Then I'd offer yes it can I've never had a problem There's a problem here and now There's so many ways to do this Somebody tell me how So many ways to get this done So many ways I must pick one So many ways I need someone to tell me What it would take to do this And it's out there hell it must be Help me I no longer trust I've never had a problem In the past I'd have a plan If it can't be done was offered Then I'd offer yes it can I've never had a problem There's a problem here and now There's so many ways to do this Somebody tell me how So many ways I need someone.
