

## That Bug Bit Me

The Mighty Mighty Bosstones

That bug bit me, I'll admit,  
Stunned - it took a while to hit.  
But when it hit me, I was hit.  
Shit, I came clean with it.  
No match, who am I so why try to deny it?  
Just a regular guy who won't even try it.  
The bug's been around since time began.  
It's bitten bigger badder bastards than the one I am.  
It can cripple and it can paralyze.  
When I felt its tooth I told the truth  
To my surprise I saw the bug and I gotta say  
Ahh, I tried to get away.  
I tried to run, I tried to fight but the bug was there to bite.  
No match, who am I?  
Must respect the insect, it injects and infects.  
If I may interject, I love the effects.  
The bug's been around since time began.  
It's bitten bigger badder bastards than the one I am.  
It can cripple and it can paralyze.  
When I felt its tooth I told the truth to my surprise.
