

The Mad Dash

The Mighty Mighty Bosstones

Slap the slogans on the t-
shirts watch them fly out of the shops
I don't like what I've been thinking, and I think it's time it
stops
Mad dash to be the first one and I pray that it's not true
Are you trying to shift the spotlight so the spotlight shines o
n you?

This might be of little interest it could come as no surprise
The level of the interest I possess
I listen to the outrage, while something inside me dies
The more I hear, the more I could care less

It is stale and it is stagnant
Ever fiber every fragment
Every second we waste on it is a shame
Grab your coat, now you'll be leaving
Hope that you had a nice evening
We thank you for your contribution
And we're glad you came

The cars came off the causeway with a healthy head of steam
Benefits, fund raisers and events
I want to find out that this nightmare here is only a bad dream
Wake up and the world makes perfect sense

It is stale and it is stagnant
Ever fiber every fragment
Every second we waste on it is a shame
Grab your coat, now you'll be leaving
Hope that you had a nice evening
We thank you for your contribution
And we're glad you came
