

# What It Takes

## The Mighty Mighty Bosstones

What it takes  
Is in between the lines  
Make or break  
Ignored the warning signs  
A daily dose of nothing you can use  
Shortsighted, misguided with a very short fuse  
Solid solution and it's a, a perfect plan  
So circle back around and get back to me when you can  
This just might be the last chance you've got left so let's

Turn up the volume  
The system should be sound  
Jump up, get back and turn yourself around

Look at this but don't look at that  
It's hit or miss  
Is this where we're at?  
No moral compass on the lower road  
Front row seating overheating and  
Ready to explode  
Dead on arrival  
Out of the gate  
There might be a revival, you're just gonna have to wait  
There might not be a better time for this so let's

Turn up the volume  
The system should be sound  
Jump up, get back and turn yourself around  
Turn up the volume  
The system should be sound  
Jump up, get back and turn yourself around

Turn yourself around  
Turn yourself around

So when you've been out at the riots and you've been down to the beach  
You've got the right to remain quiet and the freedom from your speech  
This just might be the last chance you've got left so let's

Turn up the volume  
The system should be sound  
Jump up, get back and turn yourself around  
Turn up the volume  
The system should be sound  
Jump up, get back and turn yourself around

Turn yourself around  
Turn yourself around  
Turn yourself around  
Turn yourself around

This just might be the last chance we have left
