

## A Love That Can Never Be

The Miracles

Oh baby, I love you and I know you love me  
But our love is a love that can never be

Too late you've come my way  
I've promised another to love and to wait  
No I can't, no no, I can't hurt her soul  
My love for you she must not know

Oh baby, I love you and I know you love me  
But our love is a love that can never be

My heart will always belong to you  
Even though this makes me through  
She's treated me kind, our love for so long  
Now I can't do her wrong

(Never be, never be)  
(Never be, never be)

Oh baby, I love you and I know you love me  
But our love is a love that can never be

Darling, this is goodbye  
Promise me, you won't cry  
It hurts me so that we must part  
But I can't break her heart

Oh baby, I love you and I know you love me  
But our love is a love that can never be  
I know I'm gonna feel real bad  
I know I'm gonna be real sad  
But our love is a love that can never be  
I know that this is gonna hurt me so  
And I know I'm gonna hate to see you go  
But our love is a love that can never be
