

I've Been Good To You

The Miracles

Look what you've done
You've made a fool out of someone
Who thought love was true
And found out that you were just having fun
Oh yeah
Oh why do you wanna make me blue
After all I've been good to you
(I've been good to you)

Oh yes I have
Oh I recall the time
You needed somebody and I made you mine
You needed a friend so I took you in
And treated you kind, oh yeah
Oh why do you want to make me blue
After all I've been good to you
(I've been good to you)

I have always been around
And I never ever let you down
Now you're telling me that you must go
You know that you're hurting me so

But they'll come a time
One day one day one day one day
You're gonna wake up and find
You'll come back to me on your bended knees
You're gonna be crying
Oh believe me what I say is true
After all I've been good to you
(I've been good to you)

Oh yes I have
Been good been good been good
(I've been good to you)
Everyday
I've been good I've been good I've been good
(I've been good to you)
