

## This I Swear, I Promise

### The Miracles

If you just give me one sweet glance  
Show me there's half a chance  
That someday we'll romance  
Than I'll make my advance  
I will never hurt your heart  
I'll be true right from the start  
This I swear, I promise

If you just say that you'll be mine  
Together our hearts will bind  
A truer love you'll never find  
One to last till the end of time  
I will try to satisfy  
And to never make you cry  
This I swear, I promise

I promise to always be faithful  
I promise to always be true  
I promise never to love  
Nobody else but you

By your side I'll stay  
And never go away  
Believe me what I say  
I'll always feel this way  
I will promise to be true  
And to stay right here with you  
This I swear, I promise, yeah  
This I swear, I promise
