

Aesthetic Fluttering

The Misanthrope

Travelling from a faded love
Fluttering as: "a fatal forest"
Reverse the genital process, bringing forth a child
Horses juice gaze over inferno
Standing -The wind blows my hair-
The cliffs are upon
Nearer to heart than eyes
Delestering obstruded thirsty trials
Mutterd drips laughs
I mourn for my father: our King
Servant, slaves and poor -Desires
Have been the one -Dream of power
Strayed-off obfuscation
Sights of holy grin
Utter the mirror of silence

Aesthetic fluttering
In consciousness emotion
The climates begin
Shattered deepness draped in white
Fire my dust ecstasy I fly

Can you hear it? Could I leave it?
Infernal travesty, oh no ...doom my eve
Obsessed risk: The need to see more trees
Inaudible sounds, thou art drink from my veins
Hash softness in my body
Harvests the lust pegase
Stillness, wind silent as
The moon shines
Bright as a tree in darkness
Horses of calmness caress me
Miserable shadowings mist, doom
My soul
Emptyness is my desire
Slowly I'm failing down, down
Shom me the glory, hammer God !
Obscure windows of wiseness and wisdom
Of develish friendship, wolves recall my hymns
Endless paranoia symphonies
Solar stars focus power of iniquity
Aesthetic, shredded pictures, haunt
Rememberance granted, everlasting joy
