

# So Good

The Moffatts

So good  
We got something so good  
You know what I'm thinking 'bout even if we don't say a word  
Hu huh

So right  
We got something so right  
We can scream and yell, fight like hell  
Turn around and it's alright

Baby could it be that maybe we got lucky  
But...

This love didn't come easy  
It took a little bit of rolling up the sleeves  
And giving up never even entered my mind  
And it turned out like I knew it would  
So good

We got something so Hollywood  
A fairy tale, movie love  
Happy ending everybody's dreaming of

After all we've done  
And been through  
Ya you're still the one

And this love didn't come easy  
It took a little bit of rolling up the sleeves  
And giving up never even entered my mind  
And it turned out like I knew it would

Ya we walked through the fear  
Somehow we made it here  
Ya

After all we've done  
And been through  
Ya you're still the one

And this love didn't come easy  
It took a little bit of rolling up the sleeves  
And giving up never even entered my mind

Yah this love didn't come easy  
It took a little bit of rolling up the sleeves  
And giving up never even entered my mind  
And it turned out like I knew it would  
For the first time it's working out how it should  
Yah it turned out  
So good  
So good
