

## Little Noises

### The Monochrome Set

I am not here now

Bow down to her, bow at her feet  
You must keep still, you are her seat  
So young and fresh, so young and sweet  
She will have you

Little noises of contentment and pleasure ]  
They are not ill they are just ]  
Screaming, screaming, screaming, screaming ]  
Little sounds of happiness when together ]  
They are not there, they are just ]  
Dreaming, dreaming, dreaming, dreaming ] (Chorus)

I am not here now

Here is some skin, some skin to feel  
Down on your back, under her heel  
Here is his sweat, something to steal  
She will kill you

(Chorus)

I am not here now

If you're not dead, please raise your hand  
If you have legs, please try to stand  
If you're a star, try not to fall  
I won't catch you

(Chorus)
