

## I Can't Wait

The Moog

Don't think I don't get it  
We just need to talk a bit  
Less and act way more  
Who needs this petty war?

You hear but you cannot listen  
You never say yes or say no  
So let me in or let me go  
I can't wait, I can't wait any longer  
Just be straight, your eyes can't grow much colder  
Can't grow much colder  
Let go  
You're calm but the time  
is ticking  
I can see that something's missing  
Look me in the eye  
You'd never say goodbye

I know it's complicated  
You never say yes or say no  
So let me in or let me go  
(Can't grow much colder)  
The glow is fading when the hopes molder  
Just close your eyes
