

## I Wanna Take You to Paris

The Moog

Take the time and look around  
Slowly but we're losing ground  
The streets conspired to drown us  
Let's wave goodbye

I wanna take you to Paris  
Sneak into clubs where the fun is  
I'll spit wine on the ceiling  
Until your face seems so beaming  
And when the night is over  
We'll start to act way bolder

Everyone's so serious  
But I'm only delirious  
I could wait but life can't  
We're almost late

I wanna take you to Paris  
Sneak into clubs where the fun is  
I'll spit wine on the ceiling  
Until your face seems so beaming  
And when the night is over  
We'll start to act way bolder  
Singing lalalalalalalaaaa

The problems can't run as fast  
As we can do we can do now  
Come with me there's no time to think  
This road ends here  
But have no fear  
Oh my dear  
A new day is here
