

Confess It To Your Heart

The Moonglows

Confess it to your heart
You're falling for her ways
You're caring more about her
She's got you in a daze

Confess it to your heart
Her kisses thrill you more
Than any other kisses
That you have had before

Though you may have reason
To think it's wrong to care
Still the love is there
Within your soul
(Within your soul)

There's no forgetting now
She's all your dreaming of
Surrender to the feeling
Confess it to your heart
