

I Knew From The Start

The Moonglows

I knew from the start that you were the only girl for me
And I knew from the start that ours was a love that was just meant to be
And I knew from the start you were the one for me

Oh yes, I knew at a glance that you were the only one for my heart
And I knew at a glance that cupid has flown and loosened his dart
And I knew at a glance that you are the one for me

I've waited it seems like forever
For true love to come my way
I'm so glad that I was so clever
To know that I'd meet you someday

Oh, oh, I knew from the start that you were an angel and you were divine
And I knew from the start from here to eternity you would be mine
And I knew from the start you were the one for me
