

Tempting

The Moonglows

Uh

Uh

You are tempting baby

You are tempting baby

You are tempting baby

You tempt me all the time

(Hey now)

When you're walking down the street

Switching from side to side

You look mighty neat

You make my temperature rise

I saw you getting ready last night

With your headlights on

Got you in some dark alley

My how you carry on

Well I love you baby

Cuz you're stacked with that

You and all the rest

When you're walking down the avenue

All the fellas holla baby how bout that miss

You are tempting baby

You are tempting baby

You are tempting baby

You tempt me all the time

Yeah remember baby

When I give you all my bread

You know what I'm talking about

So come on baby help me out

You are tempting baby

You are tempting baby

You are tempting baby

You tempt me all the time, yes I love you

You tempt me all the time, please please

You tempt me all the time, yes I'm going to

You tempt me all the time

Uh
