

When I'm With You

The Moonglows

What makes my heart turn upside down
And my head goes spinning (spinning, spinning) round and round
It only happens when I'm with you

We-oo we-oo we-oo, well

What makes me count the days gone by
And never (never, ever) keep a sigh?
It only happens when I'm with you

As time goes by, I tell myself that I
Am living in a wonderland
And I can't seem to understand

And when the tears fall from my eyes
Then I (I, I) realise
It only happens when I'm with you

Oh yeah, it only happens when I'm with you
