

Do What You Love

The Moth & The Flame

Everyone is moving forward
Bigger plans and bigger words
That's how it works
That's how it works
With my future on the line
Try to ease my parent's minds
It's hard to see
It's not for me
Throw my layers to the ground
Remove my mask and look around
To see who I am
Is not who I am

I want to get that feeling
Want to know what it means
To live out my dreams
Do what you love

Do what you love
And never look back
Do what you love
Do what you love
And never look back
Do what you love

Have you had enough?
Have you had enough?
Have you had enough?
Have you had enough?

You learn to deal with all the stress
The kind that makes my jaw compress
Grind my teeth at night
Grind my teeth at night
In the morning ever fear
Will be far away from here
How to see
Have faith it me
With no money or a crown
Life and love can get you down
That's how it works
That's how it works

I want to get that feeling
Want to know what it means
To live out my dreams
Do what you love

Do what you love
And never look back
Do what you love
Do what you love
And never look back
Do what you love

Have you had enough?
Have you had enough?

Have you had enough?
Have you had enough?
