

## Holy War

### The Moth & The Flame

Pull the heart out of your smile  
Push the sense of being here from your life

Carve your thoughts out in your eyes  
They read I don't want to be alone in the end  
In the end

There's a holy war in your eyes tonight  
There's a holy war in your eyes  
There's a holy war in your eyes tonight  
There's a holy war in your eyes  
There's a holy war in your eyes tonight  
There's a holy war in your eyes  
There's a holy war in your eyes tonight  
There's a holy war in your eyes  
There's a holy war in your eyes tonight  
There's a holy war in your eyes  
There's a holy war in your eyes tonight  
There's a holy war in your eyes
