

Ozymandias

The Moth & The Flame

Stop
I'm not gonna listen
Stop
I'm not gonna listen to you
You should be here

Hope
Something we've been missing
Hope
Heaven wasn't listening
You should be here for me

All of our lives like words in the sand
All of our lives like words in the sand
All of our lives like words in the sand
All of our lives like words in the sand

Stop
You know what you're doing
Stop
I don't want excuses
You should be here

For me

Ozymandias
What does it matter?
Ozymandias
What does it matter?
Ozymandias
What does it matter?
Ozymandias
What does it matter?

Please
Will you ever listen?
Please
Will you ever listen to me
You should be here

All of our lives like words in the sand (you should be here)
All of our lives like words in the sand (you should be here)
For me
