

What Do I Do

The Moth & The Flame

You're my heart
My sense of direction
My feet on the ground
You're my home
You're all that I know
All that I am

But what if you fall in love with someone else?
What if you decide that you don't really need me?
What do I do?
What do I do, then?
What do I do?
What do I do, then?

I will fight for all of my days
To keep your love
When all it takes
Is one careless moment
My world spins away

But what if you fall in love with someone else?
What if you decide that you don't really need me?
What do I do?
What do I do, then?
What do I do?
What do I do?

Soon enough
There's no looking back
Don't ever let go
But what if I fall in love with no one else?
What if I decide that I don't really need you?
What do I do?
What do I do, then?
What do I do?
What do I do?
Oh...
