

Soul Redeemer

The Motors

You came along when the time was right
I was heading so low
I raised my eyes, but I could hardly see
The kind of love that you had to show

You took my heart away from all kind of trouble
You never left me alone
But when I think about the love and the change in me
I'm a believer (I'm a believer)

Welcome to my world, soul redeemer
Welcome to my life, soul redeemer
And when I think about the love in me
Don't you know it came so easy?
Welcome to my world, soul redeemer

I used to walk with the lonely people
I was searching for love
And every day, I'd hang my head in sorrow
My reputation was gone

But now I've found myself a new situation
And that's what life has become
But when I think about the love and the change in me
I'm a believer (I'm a believer)

Welcome to my world, soul redeemer
Welcome to my life, soul redeemer
And when I think about the love in me
Don't you know it came so easy?

Welcome to my world, soul redeemer
(Won't you, won't you date me?)
Welcome to my life, soul redeemer
(Don't you know you saved me?)
Welcome to my world, soul redeemer
(Won't you, won't you date me?)
Welcome to my life, soul redeemer
(Don't you know you saved me?)
Welcome to my world, soul redeemer
(Won't you, won't you date me?)
Welcome to my life, soul redeemer
